

GRADUATION REQUIREMENTS

In order to graduate from the Little Silver School District, and be promoted to the Red Bank Regional High School, a student must:

- A. Meet both state and district proficiency standards in the New Jersey Department of Education approved curriculum areas; achieve or exceed passing grade on New Jersey Department of Education approved State-wide high school proficiency assessment;
- B. Complete successfully any course requirements stated in the administrative code, unless those of the district are greater, in which case the district's standard must be met. The proficiencies required must include the New Jersey Student Learning Standards approved by the State Board of Education;

Successful completion means that the student has demonstrated the degree of proficiency required by the district to indicate achievement of the district goals for the particular course and has attended the required number of course sessions.

Transfer students must meet all state and local requirements in order to be promoted to the Red Bank Regional High School.

The superintendent shall put into effect the procedures necessary to assess each student upon entry into the system, and, annually thereafter, to identify those students not meeting the state or district proficiency requirements. He/she shall develop the programs necessary to remedy these deficiencies at the lowest possible grade level.

Remediation and Basic Skills

Students who do not pass the New Jersey Department of Education approved statewide proficiency assessment, the elementary assessment component for grades three through five and the middle school components for grades six through eight shall be provided appropriate remediation.

English Language Learners

English language learners must be provided with the program opportunities required by law and must fulfill the regular state and district requirements for graduation.

Special Education Students

A student with a disability must meet all state and local high school graduation requirements in order to receive a state-endorsed high school diploma unless exempted in his/her IEP with the written approval of the superintendent.

A student who qualifies may take an alternate proficiency assessment approved by the New Jersey Department of Education, if alternate requirements have been specified in his/her IEP.

GRADUATION REQUIREMENTS (continued)

By June 30 of a disabled student's last year in the elementary program, the student's case manager, parent/guardian and teacher(s) shall meet to review the instructional guide and basic plan of the student's IEP in view of the transition to the secondary program. Input from appropriate staff from the secondary school shall be part of the review.

The basic plan of the IEP for the student exiting the elementary program will address all the elements required in the administrative code. The description of the educational program will include exemptions, if any, from regular education program options or state and local graduation requirements including the Department of Education approved statewide high school proficiency assessment, along with the rationale for the exemptions. The exemptions must be approved in writing by the superintendent.

Proficiency

In consultation with appropriate professional staff, the superintendent shall develop and present to the board for adoption indicators of achievement and standards of proficiency and attendance.
